PROFESSIONAL SUMMARY

Full Stack Developer with production experience building REST APIs, admin workflows, and React frontends end to end. Currently developing a jewelry billing ERP (NestJS, Prisma, PostgreSQL, React) with Shopify integration for pricing, checkout, and reconciliation. Strong in Spring Boot, JWT authentication, MySQL/PostgreSQL data modeling, payment and third-party APIs, Git/GitHub, and Postman testing. Seeking a Full Stack role owning secure backend services, clean REST contracts, and responsive user interfaces.

TECHNICAL SKILLS

Frontend: React.js, HTML5, CSS3, Bootstrap, Tailwind CSS, Responsive Web Design
Programming: Java, OOP, JavaScript (ES6+), TypeScript, Python
Backend / Frameworks: NestJS, Prisma, Spring Boot, REST API, JWT Authentication, Node.js, Express.js
Shopify / Commerce: Liquid, Online Store 2.0, Shopify Admin API, GraphQL
API / Integration: JSON, RESTful APIs, Axios, Payment gateways
Databases: PostgreSQL, MySQL, MongoDB
Tools & Platforms: Git, GitHub, Postman, VS Code, Eclipse, Railway, Vercel, Docker, GitHub Actions
Practices: Layered Architecture, API Testing, Agile Collaboration, Code Reviews

CERTIFICATIONS

EXPERIENCE

Full Stack Developer — Huemain Digital Marketing, Dharmapuri Jul 2026 – Present

- Led full-stack development of a jewelry billing ERP (NestJS, Prisma, PostgreSQL, React) integrated with Shopify for pricing, checkout, and reconciliation.
- Architected the backend as the single source of pricing truth, with admin-approval workflows for rate updates before they reach the storefront, keeping prices consistent across channels.
- Built payment-gateway flows for refunds and reconciliation, with storefront checkout as the only payment entry point.
- Deployed the backend to Railway and the frontend to Vercel; fixed production issues around monorepo builds, CORS, JWT configuration, and database seeding.
- Built custom Shopify theme components and storefront features using Liquid, Online Store 2.0, and Admin/GraphQL APIs.
- Used Cursor to speed up feature development, debugging, and code reviews across the stack.

PROJECTS

Yumzo — Full-Stack Food Ordering Web Application

Technologies: Java, Spring Boot, MySQL, JWT, BCrypt, React.js, TypeScript, Vite, REST APIs, Razorpay, TheMealDB API, Postman, Git, GitHub

- Developed a secure Spring Boot backend with JWT authentication, BCrypt password hashing, and role-based access to RESTful APIs for user and order operations in a clean layered application structure.
- Built a modern React + TypeScript (Vite) frontend with the Context API for auth and cart state across browse, cart, and checkout screens with a fully responsive layout.
- Integrated Razorpay for secure online payments and TheMealDB for dynamic catalog data; implemented a normalized relational MySQL schema for orders, items, and history; validated critical end-to-end flows with Postman and versioned code on GitHub.

Kattadam — Construction Marketplace Live Demo

Technologies: Next.js 14, React, TypeScript, Tailwind CSS, Supabase, PostgreSQL, Server Actions, Netlify, Git

- Designed a swappable data-layer backend on Supabase with migrations, auth, and enquiry persistence across dealers, materials, properties, and users, ensuring scalability and reliability.
- Built customer marketplace pages with search, filters, and enquiry submission; admin dashboard for catalog, enquiry, and user management.
- Deployed a production-ready Next.js app to Netlify with API routes, server actions, and responsive UI across listing and admin flows, following modern best practices.

Velzo — E-Commerce Application Live Demo

Technologies: HTML5, CSS3, JavaScript, JSON, Firebase Authentication, localStorage, Vercel, GitHub

- Developed and deployed a responsive fashion e-commerce website on Vercel, featuring category-based navigation and dynamic product sections driven by JSON catalog data.
- Built interactive shopping flows including product listings, sale/promo banners, and a persistent cart using localStorage, with Firebase Authentication for secure user login and registration.
- Designed a modern mobile-friendly UI with reusable layout sections to deliver a clean streetwear storefront experience across devices.

EDUCATION

B.Sc. Information Technology 2022 – 2025
Karpagam Academy of Higher Education, Coimbatore CGPA: 7.8/10
